LinkedIn: linkedin.com/in/abhay-upadhyay-97a708310

PROFESSIONAL SUMMARY

Highly motivated and versatile BCA (IBM) student at United University with a strong technical background as a Python, Java, and C++ Programmer. Experienced in full-stack web development, conversational AI, and Machine Learning deployment architectures. Proven industry exposure through multiple tech internships and verified corporate credentials from IBM, YHills, Beep, and LearnTube. Exceptional at combining robust backend logic with interactive frontend design and sports-driven leadership traits to deliver scalable computing solutions.

EDUCATION

Bachelor of Computer Applications (BCA - IBM) 2024 – 2027 (Pursuing)

United University, Prayagraj

Higher Secondary Education (12th Standard) – First Division 2024

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, JavaScript (ES6+), HTML5, CSS3

Core Tech Domains: Conversational AI (Chatbots), Machine Learning Models, Full-Stack Web Development, Responsive UI/UX Layouts

Key CS Coursework: Operating Systems (CPU Scheduling & Memory Management), Object-Oriented Programming (OOPs), Data Structures, Database Management (DBMS)

Tools, IDEs & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Canva, Figma (Concepts)

WORK EXPERIENCE & INTERNSHIPS

Web Development Intern – *Wayspire Edtech Private Limited* June 2025 – July 2025

- Adopted a structured, result-oriented development approach to build responsive, high-performance web components.
- Collaborated with tech leads inside agile sprints, maintaining code versioning through repository workflows.

Graphic Designer Intern – *Wayspire Edtech Private Limited* Remote

- Designed high-fidelity promotional banners and visual digital assets, directly scaling user brand engagement metrics.
- Synthesized complex tech requirements into intuitive creative wireframes by working closely with product marketing engineers.

CERTIFICATIONS

- **AI Chatbot Development –** YHills Edutech Jan 2025
- **Machine Learning with Python –** IBM (via United University Skills Network) April 2024
  Credential ID: f1b2e6a25e654a9394780da94a971b25
- **Python 101 for Data Science –** Cognitive Class (IBM Developer Skills Network) April 2026
- **Artificial Intelligence Excellence –** Beep (Google for Startups Accelerator & Shark Tank India Partner) July 2025
- **Project Management Assessment –** LearnTube.ai June 2025

KEY ACADEMIC PROJECTS & DOMAIN EXPOSURE

- **Intelligent Conversational Systems:** Developed automated rule-mapping chatbot models tracking user response triggers, leveraging core conversational architecture principles.
- **Algorithmic Implementations:** Coded internal data structure sorting, CPU scheduling algorithms (Round Robin), and page replacement modules using Python and C++.
- **Full-Stack Responsive Interfaces:** Built end-to-end front-facing semantic web apps utilizing modular components, CSS grid systems, and asynchronous JavaScript logic.

EXTRACURRICULAR STRENGTHS & SOFT SKILLS

- **Sports & Leadership:** Active cricket player; internalizing on-field coordination, calculated risk management, team synergy, and strict discipline directly into software project lifecycles.
- **Core Competencies:** Logical Problem Solving, Team Coordination, Excellent Adaptability, Professional Ethics.

PERSONAL DETAILS

Date of Birth: 30/11/2005
Languages: Hindi, English
